  - I. Claims 1-3, 8-11 and 19, drawn to apparatus, classified in class 482, subclass 130.
  - II. Claims 4-7 and 12-18 Enter claim identification information, value = \*\*\*, drawn to method of tension relief, classified in class 601, subclass 24.
2. The inventions are distinct, each from the other because:
3. Inventions Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus may be used to perform other functions besides stretching, such as exercising.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
